

ALLERGEN INFORMATION

(for use in US only)

We know that many of our valued Guests have varying degrees of food intolerances and allergies they deal with on a daily basis. To ensure you have a safe experience, please review the information below to assist you with selecting menu options that best fit your individual needs. We know that many of our valued Guests have varying degrees of food intolerances and allergies they deal with on a daily basis. To ensure you have a safe experience, please review the information below to assist you with selecting menu options that best fit your individual needs.

PREPARATION STATEMENT

While we may have individual products or ingredients that do not contain a specific allergen, we do not have the ability to segregate those products during normal kitchen processes. As a result, such products could come into contact with an ingredient that might otherwise cause an allergic reaction.

- **During preparation, we do not use separate fryers for cooking. Because of this, there is the potential for allergen crossover with any of our fried items.**
- **Our Traditional Wings and Boneless Wings are fried and sauced in the same containers.**
- **Beef shortening is used to fry products.**
- **We grill many items that contain allergens, and cross contact with other allergens may occur during the cooking process.**

PRINTED INFORMATION IS VALID- 08/07/2017 -11/12/2017

The following information is designed to assist guests with food allergies.

PLEASE NOTE: Because of our reliance on suppliers for accurate information, the shared cooking and preparation areas in our kitchens, and the above-mentioned kitchen procedures involved in cooking, we cannot eliminate the risk of cross-contamination or guarantee that any item is free of any allergen. The information below details which of the most common allergens are present in each menu item. If you have questions about this information, please ask to speak to a Restaurant Manager. If you have any questions about food allergies or sensitivities, we recommend that you contact your medical professional.

NOTES:										
Preparations Procedures and Cross Contamination Warning:										
In the preparation process of all our fried items we do not segregate individual product into separate fryers when they are cooked so there is the potential of the crossover of fried items and oil in the fryers. Our Traditional wings and Boneless wings are fried and are also sauced in the same containers.										
* The soybean oil use in some of the Buffalo Wild Wing sauces, dressings and products is a highly refined oil unless otherwise specified. Highly refined soybean oil does not demonstrate a significant hazard to allergic individuals and therefore it is not listed as an allergen. This is confirmed by the FDA and USDA in their allergen specifications. Please note that although soybean oil is listed as an ingredient in these products, highly refined oil is not considered an allergen. The allergen chart only lists those products in which Soy is stated on the manufactures allergen statement.										
***Frying Oil Statement: beef shortening is used to fry products.
