

# Buffalo Wild Wings Allergen List - U.S. Restaurants Only

7/11/2013

This information is to be used as a guide to assist our guests with better informed food choices. Buffalo Wild Wings® has received this allergen information from our approved manufacturers and does not guarantee its accuracy other than as compiled. **This information is applicable to U.S. restaurants only.**

	Dairy	Egg	Fish	Shellfish	Corn	Wheat	Soy*	Gluten	MSG	Peanut	Tree nut
<b>Hand -Spun Wings</b>											
Traditional Wings are a fresh product that is deep fried. Boneless Wings are all white meat chicken breaded and fried. The same container is utilized to tossed in sauce/seasoning of choice. In the preparation process of fried items, individual products are not placed into separate fryers so there is the potential of crossover of fried items and oil in the fryers. For sauce/seasoning selections - Please see list below.

<b>NOTES:</b>											

1. Frying Oil Ingredient Statement: Deodorized Beef Tallow, BHT and Citric Acid (to protect flavor), Dimethylpolysiloxane (added as a stabilizer).

2. Preparations Procedures and Cross Contamination Warning:

In the preparation process of all our fried items we do not segregate individual product into separate fryers when they are cooked so there is the potential of the crossover of fried items and oil in the fryers. Our Traditional wings and Boneless wings are fried and are also sauced in the same containers.

\* The soybean oil use in some of the Buffalo Wild Wing sauces, dressings and products is a highly refined oil unless otherwise specified. Highly refined soybean oil does not demonstrate a significant hazard to allergic individuals and therefore it is not listed as an allergen. This is confirmed by the FDA and USDA in their allergen specifications. Please note that although soybean oil is listed as an ingredient in these products, highly refined oil is not considered an allergen. The allergen chart only lists those products in which Soy is stated on the manufactures allergen statement.
